

AMERICAN ASSOCIATION OF
ENDOCRINE SURGEONS

2013 Annual Meeting

April 14-16, 2013

Chicago, IL
InterContinental Chicago

Advance Program

2013 Annual Meeting

April 14-16, 2013

Chicago, IL
InterContinental Chicago

WELCOME

On behalf of the **American Association of Endocrine Surgeons**, we invite all of you to attend this year's Annual Meeting, scheduled for April 14-16, 2013 in Chicago.

We are expecting an excellent scientific meeting and are very much looking forward to gathering a vast representation of the Endocrine Surgical Family from around the world. We know that you will enjoy the high scientific quality of the very competitive podium presentations and promise that the friendship and camaraderie will be exceptional!

Membership in the AAES has a multitude of benefits. One of the greatest benefits is participation in our annual meeting to share knowledge with colleagues and friends. The association continues to explore opportunities to help your practice, enhance skill sets and to provide service.

The theme for this year's meeting will be "Quality and Outreach". In addition to 40 oral presentations and many poster displays, we will have a variety of additional sessions including the following:

SATURDAY, APRIL 13TH

American College of Surgeons Thyroid and Parathyroid Ultrasound Skills-Oriented Course

This course will offer basic thyroid and parathyroid ultrasound skills training which grants certification, plus an advanced techniques component with separate CME. Attendance is limited, so reserve your spot today on the enclosed registration form.

SUNDAY, APRIL 14TH

IT for Endocrine Surgeons

This session will provide an update regarding the enhanced patient educational site, as well as interactive Q and A options, and other website highlights currently being developed.

Collaborative Endocrine Surgery Quality Improvement Program (CESQIP) and Outcomes in Endocrine Surgery

CESQIP is an AAES-sponsored quality improvement program for tracking outcomes that will provide benchmarking for the promotion of science, provisions for maintenance of certification and to provide the lattice structure for national and international collaboration.

Historical Lectures

This session has become a highlight over the past years, and plans for 2013 are no exception.

TUESDAY, APRIL 16TH

AAES Panel Session: The Patient's Voice - Is There More to be Heard?

In this 1-hour panel session, endocrine surgeons and otolaryngologists will discuss the data on indications, alternatives, costs, conduct, and outcomes of perioperative laryngoscopy and provide current practice recommendations. Attendees will be invited to submit questions to the panel.

Mock Orals

This session will be offered in a group format to establish official exams of fellows for future certification. Mock orals will be administered for interested fellows and participation will be by volunteer sign up.

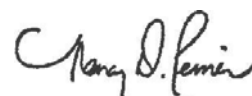

Arrive early to enjoy some of these special offerings and to take advantage of all Chicago has to offer. The main scientific session begins at 12Noon on Sunday and the meeting concludes at 1:00pm on Tuesday.

As usual, we will have a welcome reception on Sunday evening and the Gala Dinner on Monday evening. We have built ample time for socializing and catching up with old and new friends. Registrants will get a chance to explore some of the dining options in Chicago for lunches on Sunday and Monday which will both be on your own. The spring is a great time to visit Chicago. The meeting will be held at the Hotel InterContinental in an ideal location on Michigan Avenue in the heart of the "Magnificent Mile". Because of the many wonderful cultural and recreational opportunities that Chicago has to offer, we encourage you to arrive on Saturday or stay beyond the end of the meeting on Tuesday afternoon. Within walking distance or a short cab ride from the hotel, you will find world class shopping, museums, and restaurants. A few activities that you might want to consider while in Chicago are: the architectural walking tour or the architectural boat tour, a Segway tour of the lakefront, a trip to the Art Institute of Chicago, the Field Museum, the Shedd Aquarium, the Museum of Science and Industry, or the Adler Planetarium.

We hope you will plan to join us for what promises to be an exceptional event!

Peter Angelos, MD, PhD
2013 Local Arrangements Chair

Nancy D. Perrier, MD
Secretary-Treasurer

HIGHLIGHTS

Mark YOUR calendar NOW for the **American Association of Endocrine Surgeons 34th Annual Meeting**
April 14-16, 2013 | Chicago, IL

Make plans now to participate in the American Association of Endocrine Surgeons 34th Annual Meeting.
This year's event will be held at the InterContinental Chicago.

SPECIAL EVENTS

Chicago Cubs vs. San Francisco Giants

Saturday, April 13

12:05pm

Fee: \$15 per ticket

Space is limited so please register early

(Guests are responsible for their own transportation to stadium)

Young Endocrine Surgeon Social

Saturday, April 13

9:00pm – 10:30pm

(within walking distance from InterContinental Chicago)

Yoga

Sunday, April 14

7:30am – 8:30am

Fee: \$15 per person

Yoga Loft Chicago

(within walking distance from InterContinental Chicago)

Twilight Run/Walk

Sunday, April 14

6:00pm – 7:00pm

Chicago Lakefront

AAES Welcome Reception

Sunday, April 14

7:00pm – 10:00pm

InterContinental Chicago

AAES Gala Reception and Dinner Banquet

Monday, April 15

7:30pm – 10:30pm

InterContinental Chicago

AMA PRA CATEGORY 1 CREDITS™

Continuing medical education credits will be provided for this activity.

MOC Part 2 requires that 60 out of 90 hours must include a self-assessment activity. This meeting will contain a self-assessment component.

SPECIAL EDUCATIONAL OFFERINGS & LECTURES

MEETING TOPICS

- Thyroid Nodule
- Thyroid carcinoma
- Hyperparathyroidism
- Parathyroid carcinoma
- Adrenal Nodules
- Adrenocortical carcinoma
- Neuroendocrine pancreatic tumors
- Intricacies in the diagnosis and management of endocrine diseases
- Surgical approaches (open, minimally invasive, robotic) and intraoperative adjuncts (nerve monitor, ultrasound, PTH monitoring)
- Outcomes, including short-term and long-term complications and quality of life
- Translational research

American College of Surgeons Thyroid and Parathyroid Ultrasound Skills-Oriented Course

**NOTE: Pre-Requisite
Required for Full Course**

**Saturday, April 13
7:30am - 5:00pm**

Advanced Topic Lectures

Didactic Only

10:30am - 1:15pm

This pre-meeting course is being given by experienced leaders in thyroid and parathyroid ultrasound (US) techniques and applications. The objective of the course is to introduce the practicing physician to the basics of office-based US exam of the thyroid and parathyroid glands and related pathology. The course covers the principles and physics of US, neck anatomy, US evaluation of thyroid and parathyroid disease, and cervical lymph node mapping. Participants in the full course may also attend the Advanced Topics lectures (see below). In addition, a skills station lab will allow participants to learn US-guided FNA techniques using phantom models and to perform supervised US evaluation of patient volunteers with thyroid and parathyroid pathology. The full course grants American College of Surgeons certification in thyroid and parathyroid ultrasound.

Non FACS Physician - \$895
Resident / Fellow - \$640
Advanced Topic Lectures
Didactic Only - \$295

AMERICAN COLLEGE OF SURGEONS

Inspiring Quality: Highest Standards, Better Outcomes

ACCREDITATION

The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA CREDIT DESIGNATION

The American College of Surgeons designates this live activity for a maximum of 7 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

There is a pre-requisite to attend the full course. Participants must contact the ACS directly at www.acs-resource.org to purchase the CD-ROM course: *Ultrasound for Surgeons: A Basic Course, 2nd Edition*. The CD takes approximately 4 hours to complete and carries 4.0 hrs of CME credit. Successful completion of this CD is required prior to the AAES Ultrasound Course.

The day-long ultrasound course at AAES entails attendance of both basic and advanced didactic lectures and the hands-on skills lab. The course registration fee already includes the Advanced Ultrasound lectures. Participants take a computer-based pre-test and post-test. Successful completion of the course, the tests and course evaluation leads to ACS Certification in Thyroid and Parathyroid Ultrasound and a total of 7.0 hrs CME.

There is no pre-requisite to register for "Advanced Topics in Diagnostic and Interventional Ultrasound of the Head and Neck". This didactic-only portion of the course does not involve verification of skills from the ACS. It is ideal for more experienced sonographers interested to hear about US-guided FNA, ethanol ablation, US predictors of thyroid malignancy, laryngeal US to assess vocal cord mobility, molecular testing in conjunction with US, establishing office-based US practice/billing, and see a live US demonstration.

Reservations: 1-800-628-2112
www.icchicagohotel.com

AAES Group Rate: \$239 single/double occupancy plus tax
Group Code: IET
Make reservations by **March 23rd** to confirm group rate

The InterContinental Chicago is the only hotel with a front entrance on the Magnificent Mile. Discover the vibrant culture of the city from this four-diamond landmark. The InterContinental Chicago is located moments away from the trolley, Navy Pier, Millennium Park & numerous other attractions. Immerse yourself in the atmosphere of the Windy City, while enjoying the hotel's old world elegance. Make your reservation by Saturday March 23, 2013 to secure the AAES group rate of \$239.

WEATHER

Temperatures in mid-April range from an average low of 40s to 60s. A more accurate weather forecast can be found closer to the date of the meeting at www.weather.com

CHICAGO AREA INFORMATION

Airport Information

The InterContinental Chicago Hotel is located just 16 miles away from Chicago O'Hare International Airport and 12 miles away from Midway Airport.

GROUND TRANSPORTATION

Taxi Services

The best form of group transportation in Chicago is taxi cab service. A taxi from O'Hare Airport will run approximately \$45 one way and from Midway Airport \$35 one way.

Chicago Transit Authority

The Chicago Transit Authority (CTA) operates the nation's second largest public transportation system. Chicago is one of the few cities in the world that has rail service to two major airports. CTA's Blue Line 'L' can take customers to O'Hare International Airport. Orange Line trains, which operate clockwise on the Loop 'L' structure, travel to Midway Airport. For more information regarding maps, schedules and rates, please visit www.transitchicago.com

Town Car Service

Crown Cars and Limousines can be arranged through the InterContinental Chicago in advance by calling: 312-944-4100 (concierge's desk) or by calling Crown direct at 800-960-7201 or by email at: www.cctworldwide.com

GENERAL INFORMATION CONTINUED

FUN THINGS TO DO IN CHICAGO

Wendella Boat Cruises

Wendella offers Chicago's original, and most comprehensive sightseeing and architectural boat tours. Choose from daily Chicago River Architecture Tours, Combined Lake and River Tours and Chicago at Sunset Tours. Tours are offered seven days a week, and depart from Wendella's dock at 400 N. Michigan Avenue at Trump Tower – on the northwest corner of the Michigan Avenue Bridge.

For more information, and to purchase tickets, call 312-337-1446, or go online to www.wendellaboats.com.

Chicago Bike And Segway Tours

Bike and Roll Chicago offers fun and easy bike and segway tours. Join professional guides as you explore Chicago's spectacular lakefront trail and neighborhoods. Visit Millennium Park, Buckingham Fountain, Navy Pier, Lincoln Park, and all of Chicago's top attractions.

For more information and to purchase tickets, call 312-729-1000, or go online to www.bikechicago.com

CHICAGO'S MUSEUM CAMPUS

On the lakefront just south of the Loop are three of the world's finest museums: the **Field Museum of Natural History**, **Shedd Aquarium** and **Adler Planetarium**, in an area known as the Museum Campus. With enough hands-on activities and exhibitions for a week's worth of discovery, the Museum Campus is an opportunity for visitors of all ages to explore the natural world up-close. Highlights include 'Sue', the world's largest and most complete Tyrannosaurus Rex skeleton ever found, at the Field Museum; face-to-face encounters with sharks and other awesome creatures of the deep at the Shedd Aquarium; and a popular Sky Show and other interactive exhibits that bring outer space close enough to touch at the Adler Planetarium.

Art Institute of Chicago

The Art Institute of Chicago is a must see. This renowned museum encourages the individual experience of works of art, the irreplaceable embodiments of the creative impulse from all times and areas. The museum's mission is to collect, preserve, and interpret these works of art for our 1.5 million visitors annually from around the globe. The Art Institute, founded in 1879, now has approximately 300,000 works of art in its permanent collection, stewarded by eleven curatorial departments. This collection is housed in eight buildings—nearly one million square feet—at the heart of Chicago, one block from Lake Michigan and serving as the eastern anchor of the city's downtown.

For more information, call 312-443-3600, or go online to www.artic.edu.

Museum of Contemporary Art

One of the nation's largest facilities devoted to the art of our time, the Museum of Contemporary Art Chicago (MCA) offers exhibitions of the most thought-provoking art created since 1945. The MCA documents contemporary visual culture through painting, sculpture, photography, video and film, and performance. Located in the heart of downtown Chicago, the MCA boasts a gift store, bookstore, restaurant, 300-seat theater, and a terraced sculpture garden with a great view of Lake Michigan.

For more information, call 312-280-2660, or visit www.mcachicago.org.

Museum of Science & Industry

The Museum of Science and Industry, Chicago (MSI), the largest science center in the Western Hemisphere, is home to more than 35,000 artifacts and nearly 14 acres of hands-on experiences designed to spark scientific inquiry and creativity. Since opening our doors in 1933, the MSI has welcomed more than 175 million guests from around the world. The MSI mission, is to inspire the inventive genius in everyone by presenting captivating and compelling experiences that are real and educational, is realized through world-class exhibits.

For more information, call 773-684-1414, or visit www.msichicago.org.
